Busan, South Korea

### LTA - Busan Container Terminal

CH2M HILL is serving as Lenders Technical Advisor for construction oversight of Phase III of Busan Newport Container Terminal. Project construction consists of approximately 600 acres of development, with four Super Post Panamax class container berths, an automated rail mounted gantry crane container storage yard, and container terminal support facilities.

CH2M HILL is providing onsite construction inspection services to review project progress, compliance with plans and specifications, accuracy in reporting completion of key project milestones. CH2M HILL’s services provide a vehicle for our client to release funding tranches for review and approval of contractor invoices.

CH2M HILL further serves as Lender’s representative providing technical personnel, research, and advisory services for purposes of construction dispute resolution, identifying engineered solutions to technical problems, and benchmarking alternative technical concepts as the project is being developed.

The project is currently under construction, and is planned to start operations in 2011. Based on our performance to date, the client has asked CH2M HILL to further serve as Lenders Technical Advisor for Phase IV of the Busan Newport Container Terminal project.
