

**AWWA ACE 2009
CH2M HILL Presentations**

Sunday, June 14, 2009

Paul Swaim

UV and Ozone Advanced Oxidation Processes-Practical Information on an Emerging Treatment Approach

1:00pm
Room to be Determined

Monday, June 15, 2009

Roger Scharf

From Dinosaurs to Disco Queens: Optimizing Yesterday's Lime Softening Technology for Today's Challenges

2:00pm
Room 10 Upper Level

Tony Myers

New Information on Lower Cost Methods to Remove 1, 4-Dioxane

4:00pm
Room 9 Upper Level

Kerry Meyer

Biological Treatment for Nitrate Removal at the City of Glendale, Arizona

2:30pm
Room 3 Upper Level

Tuesday, June 16, 2009

Kate Peabody

Utilizing Social Media for Water Utilities

9:00am
Room 1B Upper Level

Larry Schimmoller

Luggage Point Advanced Water Treatment: Benefits of the Pilot Plant in Optimizing Design and Operations

9:00am
Room 5A Upper Level

Bob Bergman

Large Diameter Membranes: Their Role in Global Desalination

10:00am
Room 11A Upper Level

Jim Lozier

Fast Track Implementation of the Oxnard, CA Innovative Advanced Water Purification Facility

10:00am
Room 5A Upper Level

Jim Lozier

Use of Advanced NOM Characterization Methods to Trace the Fate of Organic Contaminants from a Membrane Backwash Recycle Scheme

11:30am
Room 2 Upper Level

Brian Skeens

Puerto Rico's Island-Wide Non-Revenue Water Reduction Program: Moving Fast to Recover Revenue

4:00pm
Room 1B, Upper Level

Wednesday, June 17, 2009

Rob Huehmer

Desalination Plant Concentrate and Its Impact on Receiving Waters

11:45am
Room 10 Upper Level

David Pernitsky

A Computerized Water Management Model for Infrastructure Master Planning in the Calgary Region

4:00pm
Room 11A Upper Level

Mary Vorissis

Oxnard California's Groundwater Recovery Enhancement and Treatment (GREAT) Program

4:00pm
Room 5A Upper Level

Thursday, June 18, 2009

Mark Notheis

Putting Microspheres to Work: Validating Low Pressure Membrane Filtration at the Erie Water Works 45-MGD Wasielewski WTP

9:30am
Room 9 Upper Level
