## FOR IMMEDIATE RELEASE

### **CH2M HILL projects earn prestigious Global Water Awards**

#### **PUB Singapore's Deep Tunnel Sewerage System named Water Project of the Year; Western Corridor Recycled Water Project wins Reuse Project of the Year**

Zurich, April 28, 2009 – CH2M HILL, a global full-service engineering, procurement, construction, and operations firm had several of its projects earn high marks at the Global Water Awards event hosted by the International Desalination Association and *Global Water Intelligence*. The annual awards recognize outstanding achievements within the international water industry.

PUB Singapore's Deep Tunnel Sewerage System (DTSS) was named Water Project of the Year and the Western Corridor Recycled Water Project was named Water Reuse Project of the Year. The awards were presented in Zurich, Switzerland, on April 27 by Nobel Peace Prize winner and former United States Vice President Al Gore.

CH2M HILL has been working with the PUB Singapore since 1997 to conceptualize, manage and integrate the planning, design, and construction of one of the largest used water collection and treatment projects ever undertaken globally. CH2M HILL served as program manager for DTSS. The project is a major step toward ensuring the long-term sustainability of Singapore's water resources.

Also at the awards ceremony the Twin Oaks Valley Water Treatment plant in San Diego, Calif., designed, built and operated by CH2M HILL, earned a second place award for Water Project of the Year. The Clovis, Calif., Sewage Treatment and Water Reuse facility, designed, built and operated by CH2M HILL, was recognized with a certificate in the Reuse Project of the Year category.

"On behalf of CH2M HILL, I congratulate all of the award winners," says CH2M HILL Water Business Group President Bob Bailey. "The prestigious list of nominees showcases many of the clients we've worked with over the years. We're honored to be in their company receiving this important recognition and are grateful to our industry for acknowledging our efforts and our continued commitment to excellence."

*Headquartered near Denver, Colo., employee-owned CH2M HILL is a global leader in engineering, procurement, construction, management and operations for government,*

*civil, industrial and energy clients. With \$6.4 billion in revenue and more than 25,000 employees, CH2M HILL is an industry-leading program management, construction management and design firm, as ranked by Engineering News-Record (2008). The firm's work is concentrated in the areas of energy, water, transportation, environmental, nuclear and industrial facilities.
