Image, Design, and Site Supervision

Project Summary

CH2M HILL Lockwood Greene has worked with Exxon Mobil providing construction management and includes compressed natural gas at existing filling stations.

Project Description

Exxon Mobil works throughout most of Latin America. In Argentina, the company has 15 percent of the downstream business. CH2M HILL Lockwood Greene has an open contract to support the Exxon Mobile engineering office in Argentina.

In addition, CH2M HILL Lockwood Greene has worked in close cooperation with Exxon Mobil to carry out construction management in more than 30 filling stations and implement natural gas pumps within existing filling stations.
