

Our Presence in Canada

Barlow Trail/Deerfoot Trail Interchange,
Alberta

Sea-to-Sky Highway, British Columbia

Lake Major Water Treatment Plant,
Nova Scotia

Bruce Nuclear Power Facility, Ontario

Lakeview Water Treatment Plant,
Ontario

CH2M HILL is a global leader in full service engineering, planning, consulting, construction and operations. With a presence in Canada for more than 85 years, we have over 700 employees in 18 offices.

Our Canadian roots started in Toronto with Gore & Storrie, established in 1919. In 1995, Gore & Storrie merged with CH2M HILL's Canadian operation, which began in 1978. Offering the highest level of service using the newest and best science, technology and project delivery systems available, CH2M HILL provides a full range of engineering/architectural, construction and operations services for water; transportation; communications and information solutions; industrial process and manufacturing; power and energy; and environmental projects.

As a US\$4.5 billion company with over 19,000 employees in more than 30 countries, we are your single point of contact and responsibility—taking your project from concept through planning, financing, design, construction and operations.
