CH2M HILL is a global leader in full-service engineering, planning, consulting, construction, and operations. We have worked with local and international clients throughout South America for more than 28 years.

Our Buenos Aires, Argentina, location was established in 1980 as an engineering and construction office for industrial and commercial customers. We have been servicing the Brazilian pharmaceutical, chemical, commercial, and institutional markets through our São Paulo office since 1996.

With over 400 experienced professionals, our local offices and staff are backed by a US\$5.8 billion company serving clients worldwide with over 25,000 employees in more than 77 countries. We use technology transfer and project development capabilities—as well as established relationships and joint ventures with local firms—to complete projects that meet world-class standards.

Our solutions and expertise include water, power, wastewater, energy, industrial processes and manufacturing, transportation, communications and information solutions, environmental services, and infrastructure development.
