

Our Presence in the United States of America

Benicia-Martinez Bridge, California

Rocky Flats Closure Project, Colorado

Biologics Manufacturing Facility, Maryland

Traverse City Regional Wastewater Treatment Plant, Michigan

Silverhawk Power Station, Nevada

Cape Liberty Cruise Port, New Jersey

CH2M HILL is a global leader in full-service engineering, planning, consulting, construction, and operations. Founded in the United States in 1946, we have over 17,000 employees in nearly 125 offices across the country.

With more than 25,000 employees worldwide, and US\$5.8 billion in revenue, we are your single point of contact and responsibility—taking your project from concept through planning, financing, design, construction, and operations.

We create, construct, and operate facilities, infrastructure, and systems that bring clean water, safe transportation, efficient industry, environmental solutions, and communications to people in more than 77 countries.
